-- The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 and 12 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

"Z" in Formula (I) is undefined. It appears that Z1-A-Z2 from reactant (III) should appear in (I) which represents the product which is produced by the process. See claim 1 and claim 12.

US Patents 4,271,304 and 4,672,121 are cited to show the state of the art.

Claims 7-11 are deemed to be allowable.
